

## Purpose of Questionnaire

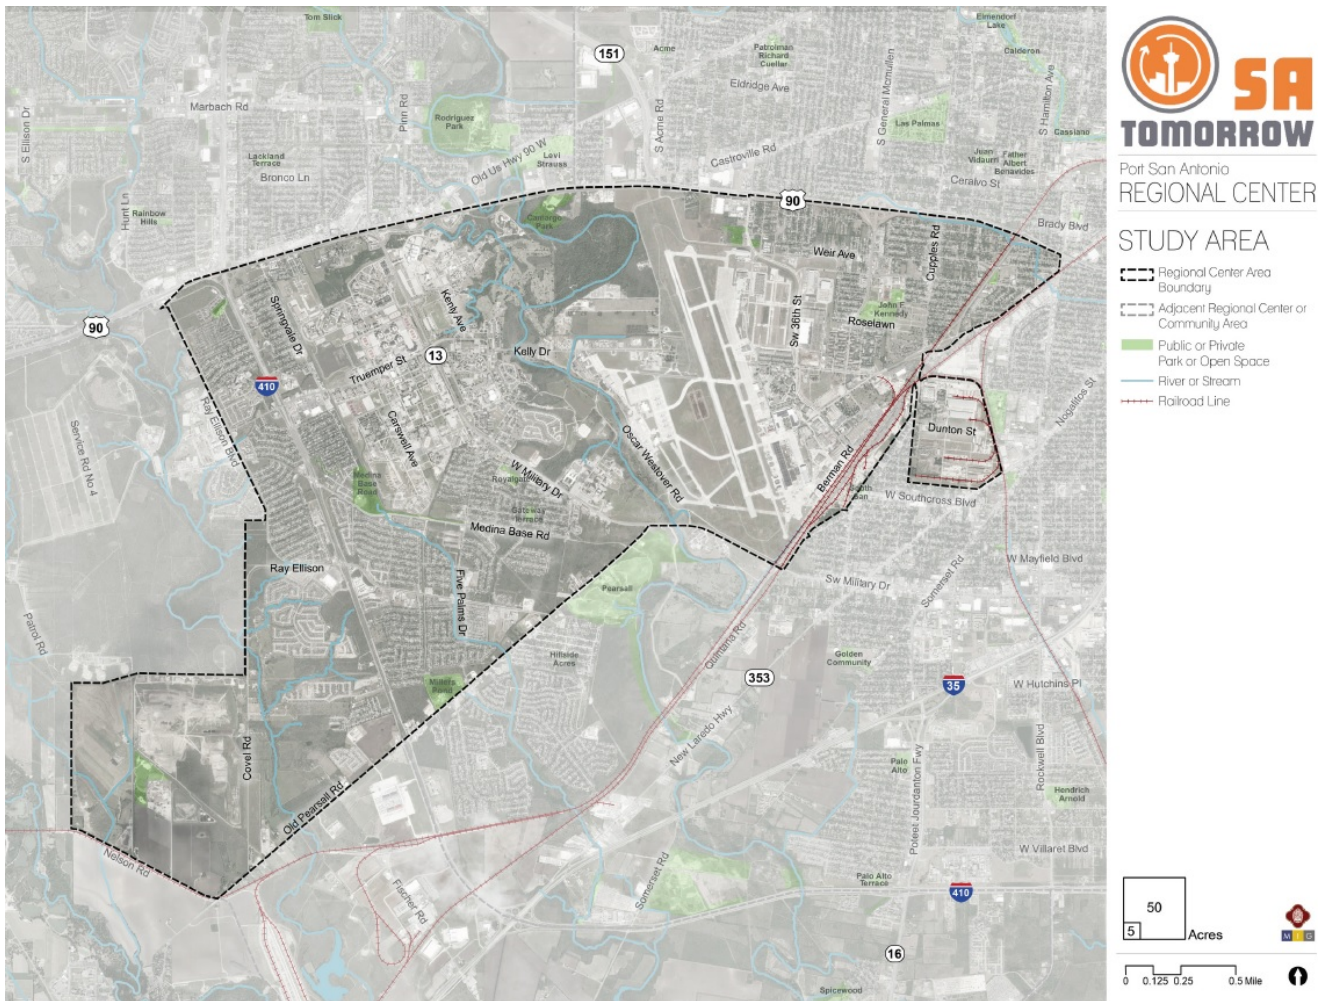

The City of San Antonio's Planning Department is gathering community input to improve the vision, goals, and focus areas for the Port San Antonio Area Regional Center Plan ("Plan") . [Por favor, haga clic aquí para tomar el cuestionario en español.](#)

The Plan will guide development and City decisions and investments over the next 10 years. The content of the Plan will address the following topics:

- Economic Development
- Housing
- Infrastructure and Public Space
- Land Use and Development
- Neighborhood Priorities
- Parks and Trails
- Transformative Projects
- Transportation

The boundaries of the Plan area are shown on the map below.

## Port San Antonio Area Regional Center Plan Area Map

The draft Port San Antonio Area Regional Center Plan Vision and Goals were created using community input. Please review the draft Port San Antonio Area Regional Center Plan Vision and Goals below.

### Vision

In 2040, the Port San Antonio Area Regional Center will be a community that embraces and enhances its rich military history while continuing to evolve as an innovation hub with strong partnerships focused on promoting science, technology, and education.

The Port San Antonio Area will be an attractive community that encourages a dynamic mix of community-serving uses along with stable, family-friendly neighborhoods. We foster an environment where people feel safe and comfortable walking, where streets, sidewalks, and trails are pleasant and inviting to use, and where all businesses and industries have the support of local residents and visitors.

1. Please use the slider below to rate how much you agree or disagree with the draft Port San Antonio Area Regional Center Plan Vision.

### Goal 1

Attract, retain, and support businesses and local talent to promote science, aerospace, aviation, logistics, and technology.

- Attract large employers to the Regional Center area by encouraging urban design concepts in key locations that will create active spaces for employees and the public to visit and enjoy.
- Strengthen partnerships with local educational organizations and technology-based companies that will help attract smaller startups to locate in this area.
- Build connections between businesses and local talent by encouraging educational programs that help local students learn more about the technology-based employment opportunities of this area.

### Goal 2

Preserve Port San Antonio Area's rich military identity.

- Continue working with Joint Base San Antonio (JBSA) in reviewing and enforcing land use and development regulations that protect the military mission at Lackland AFB.
- Promote, preserve, and expand public art and memorials related to San Antonio's military legacy.
- Highlight the area's military identity, history, and heritage by incorporating military-themed beautification efforts into new development, infrastructure, and community amenities where feasible.
- Consider adaptive reuse of old buildings to build on existing assets of the area in such a way that preserves the military history and culture and helps retain the authentic and unique character of the area.

### Goal 3

Increase alternative transit options in areas with anticipated increases in intensity of public and private use.

- Capitalize on the anticipated growth in employment at Port San Antonio and identify both new and enhanced transit routes that will help connect people to jobs while alleviating automobile congestion.
- Provide clear physical and visual pedestrian and bicycle connections from transit facilities to employment centers, retail, and entertainment attractions that will encourage people to

use alternatives to the automobile.

- Identify suitable locations for a multi-modal “grand transit” center that will connect the Port San Antonio Area to other Regional Centers in the City.
- Create great public and publicly accessible private spaces that are an amenity to surrounding businesses and that encourage gathering and activate the areas around the “grand transit” center and other important transit stations.
- Improve multimodal connectivity between neighborhoods with infrastructure improvements including construction of new sidewalks, bike lanes, and multi-use trails, as well as maintenance and repair of existing sidewalks.

#### **Goal 4**

Increase housing options while preserving or increasing home ownership rates.

- Introduce a variety of housing options in the area, particularly those currently under-represented or missing from the area that may appeal to current or future residents.
- Preserve existing family-friendly neighborhoods and seek a healthy portfolio of housing types in the Port San Antonio Area Regional Center.
- Direct higher density housing options to targeted focus areas and along major corridors, and encourage appropriate transitions of density and intensity to existing lower density neighborhoods.
- Rehabilitate or renovate housing within existing neighborhoods that are in need of repair and remediation.

#### **Goal 5**

Create unique experiences to transform the area into a destination.

- Support mixed-use/retail development in properly located areas in order to attract prospective tenants, and to create active areas that provide shopping, dining, services, and entertainment options that serve local residents, employees, visitors, and transit patrons.
- Incorporate appropriate street design, landscaping, and infrastructure improvements that improve

**2. Please use the slider below to rate how much you agree or disagree with the draft Port San Antonio Area Regional Center Plan Goals**

Strongly Disagree

Strongly Agree

### 3. Please briefly explain your rating for the goals

#### **Focus Areas**

Focus areas are, or will be, special community places that should receive extra attention or public investment to achieve community goals. Focus areas were initially identified using community input. Your answers to the questions below will help us identify opportunities to help achieve community goals in focus areas.

## Focus Area #1 - General McMullen

This area is generally around the intersection of S General McMullen Drive and W. Thompson Place and includes a variety of uses including commercial businesses, retail, restaurants, schools, single family homes, and apartments. It is also adjacent to parks that are frequently used for different sporting events and activities.

4. Briefly, how would you describe this area and how it enhances or detracts from the community? *Please limit answers to no more than 5 words for each entry.*

-

-

-

5. What, if anything, is special about the buildings, public spaces, natural environment, or community life in this area? *Please limit answers to no more than 5 words for each entry.*

-

-

-

Please tell us which of the following activities should be a part of the future of this area?

6. This should be a place for more people to live.

☐ True

☐ False

Why or Why Not?

7. This should be a place for more people to work, shop, or run errands.

☐ True

☐ False

Why or Why Not?

8. This should be a place that includes opportunities to play, recreate, or gather.

☐ True

☐ False

Why or Why Not?

9. What is your “big idea” or vision for the future of this area? *Please limit answers to no more than 50 words.*

## Focus Area #2 - Port San Antonio Innovation Hub Area

This area is generally around where Billy Mitchell Blvd intersects with SW 36th Street and S. General McMullen Drive. It has several large businesses and includes a mix of older buildings from when Kelly Field was operating as an active military base and some more recently constructed buildings for non-residential uses including industrial, business offices, and warehousing.

**10. Briefly, how would you describe this area and how it enhances or detracts from the community? *Please limit answers to no more than 5 words for each entry.***

### Q3 Please briefly explain your rating for the goals

Answered: 9   Skipped: 4

#	RESPONSES	DATE
1	In general, I believe the vision and goals are great. My only vision comment is I believe a stronger emphasis on destination could be made, and then a connection could be made more clear between a vibrant destination and the attraction of employers who create jobs. My only goals comment is I believe Goal 5 should have a strong direct connection to Goal 4 in that a destination starts with rooftops.	4/11/2019 9:36 PM
2	spending way to much tax payer money for nothing of importance to the whole of San Antonio	4/11/2019 3:25 PM
3	I strongly agree with the goals as rated. Based on Port SA Mission and Joint Base Lackland Missions. This is a very administratively driven regional center. 1. Business 2. Military 3. Transportation 4. Housing 5. Amenities -Create a destination	4/9/2019 8:07 PM
4	Will make cost of living high. Will make housing unaffordable.	4/4/2019 12:18 AM
5	I get nervous with the thought of more apartment living, as long years of experience with the neighborhood shows that they do not remain well maintained or policed appropriately	3/29/2019 3:40 AM
6	Totally agree that Port San Antonio's goals to attract, attain businesses and to support science, aeronautics, aviation, logistics, and technology. I feel that this would encourage growth in our district and area!! Very Glad for this plan.	3/24/2019 11:47 PM
7	That is way to vage and give no true definition on how that will be done and at what expensive. I see way to often when the city comes in and will plunder the community and steal.	3/22/2019 2:22 PM
8	100%	3/21/2019 6:38 PM
9	The portion speaking about "higher density housing" along "major corridors" is a bit too general and should be clarified further.	3/20/2019 11:40 PM

**Q4 Briefly, how would you describe this area and how it enhances or detracts from the community? Please limit answers to no more than 5 words for each entry.**

#	RESPONSES	DATE
1	A key component to the success of any San Antonio regional center or other area in the SATomorrow overall planning effort is a comprehensive mass transportation system that not only addresses mobility and congestion, but also directs private investment to improved land use. It should also be an attraction to large employer international site selectors. It ultimately should address the city's equity investment concept, and the city's poverty index. The metrics to evaluate such a system should include incremental property tax revenue from increased private investment, savings on infrastructure costs to chase sprawl development, as well as the qualitative factors of equity and poverty.	4/11/2019 9:46 PM
2	Would like to see revitalization that shows appreciation for both the Military and the local ethnic culture...	3/29/2019 3:44 AM
3	-We need more safe and good connected side walks, to encourage walking within a neighborhood instead of taking a car all the time. -Also more shade trees with benches underneath -more options for playyards and little parks, so the kids don't have to play on the street; shaded playyards	3/28/2019 4:40 PM

**Q38 Please provide your email address to receive meeting announcements, future questionnaires, and updates on the progress of the plan.**
