

Purpose of Questionnaire

The City of San Antonio's Planning Department is gathering community feedback to improve the draft recommendations that have been developed related to land use, housing strategies, and economic development strategies for the Port San Antonio Area Regional Center Plan ("Plan") . The Planning Department is also requesting input related to mobility in the Plan area. To learn more about the Port San Antonio Area Regional Center Plan, please visit: <https://portsanantonio.sacomplan.com>.

The Plan will guide development and City decisions and investments over the next 10 years. The content of the Plan will address the following topics:

- Economic Development
- Housing
- Infrastructure and Public Space
- Land Use and Development
- Neighborhood Priorities
- Parks and Trails
- Transformative Projects
- Transportation

The boundaries of the Plan area are shown on the map below.

Port San Antonio Area Regional Center Plan Area Map

1	focus on training seniors an occupation that is suitable for their age bracket. a very large number of seniors are under the impression that they will receive the same benefits their parents recvd(social security medicaid and medicare). we will have a huge percent of seniors homeless and in poverty History repeats before social security was created. education in self sustainment will help the seniors plus those that follow freeing government funds and creating more revenue.	11/2/2019 8:11 PM
2	None.	10/25/2019 10:37 PM
3	This area has great potential. In general, we need to respect creeks more...so more land dedicated to the LC Greenway or maybe some trails throughout the area that can connect to it would be great. We need to try to encourage pedestrian-oriented development and resist car-centric.	9/11/2019 2:24 AM
4	The priority of this area needs to be finishing the roadways. Most people, while they're excited about new neighborhoods/restaurants/attractions, it won't matter as much if traffic is terrible because roadways are still uncomplete.	9/10/2019 2:58 AM
5	I think it is very important to have good walkable neighborhood streets linking to the corridors and focus areas. There should be a map indicating where this potential is possible. This will make it more attractive for people to walk to the mixed use areas by incorporating trees, wide sidewalks, bike lanes, and attractive landscaping adjacent to the existing land uses along the residential streets. Also add a graphics of this to indicate how attractive it should be.	9/5/2019 6:52 PM

Q30 Please provide your email address to receive meeting announcements, future questionnaires, and updates on the progress of the plan.
